## **Maintenance work at Ice Harbor Dam will temporarily limit vehicle access**

**Walla Walla, Wash.,** – Traffic across the top of Ice Harbor Dam near Burbank will be restricted to one lane March 13 – 15 to allow for maintenance work, according to managers from the Walla Walla District U.S. Army Corps of Engineers. Drivers of large vehicles are urged to find alternate routes.

“A work crew will be working on a juvenile fish facility dewatering bar screen from the top of the dam to replace it,” said Barry Richards, a natural resource official at the dam. “One lane of traffic will be closed making it impossible for large vehicles like trucks and buses to negotiate the roadway.” “We appreciate the public’s patience during the completion of this work,” said Richards.

For more information, call Matt Allen, project engineer or Barry Richards at (509) 547-7781.
